Dear Dave and Monica

**Re : Chalon Trip**

Just a short note to express my sincere thanks for your personal commitment to the visit to Chalon. This trip was much more ambitious in scope than previous years and, I believe, was both more enjoyable and more beneficial for it. As ever the visit was organised at relatively short notice and only the involvement of St Cuthberts saved us from disaster on a number of occasions. The loan of the minibus and the provision of drivers was quite literally 'a life saver' without which the trip would not have gone ahead. Whilst I have grown used to the idea that St Cuthberts will be in the forefront of new ventures I am consistently surprised by the schools willingness not only to commit but to share the benefits of that commitment with other schools.

On a more personal note my own gratitude is not only to 'the school' but also to you both.

Once again; thank you.

Yours sincerely,

A handwritten signature in black ink, appearing to read "Michael Walker".
